

## THE BIG SLEEP - 4. BIENNALE DER KÜNSTLER IM HAUS DER KUNST

exhibition, Artist association in the House of Art

**Guest in the west wing: 4th Biennale of Artists

THE BIG SLEEP takes place in the nocturnal, cottony atmosphere of a deep slumber. While the body is at rest, the brain works and opens up to a complex, irrational space. Thoughts move in slow motion - so slow that you can watch them form. It is the calm before the storm, for beneath the seemingly smooth surface seething, the pressure swells, a blind black rage, feeding on the past and pointing to the future, surges upward to deconstruct the present .
